

Purpose and Scope

This policy sets out our ethical business practices. It applies to all employees, in relation to our dealings with people, agents, clients, suppliers, subcontractors, competitors, government officials, the public and investors in all our operating countries.

Policy Objectives

We have a duty to act responsibly and to show the highest levels of ethical and moral stewardship. The objectives of this policy are to

- Support our commitment to be a responsible business and develop mutually beneficial and sustainable relationships with all our stakeholders, based on trust and co-operation;
- Treat all our stakeholders appropriately; and
- Promote safe and fair working conditions, including the responsible management of environmental and social issues within our supply chain, by ensuring our suppliers comply with our Supplier Social Value policy, Procurement policy, all and any other relevant Mitie's policies, and other legal and regulatory requirements. This policy should be read in conjunction with the Mitie Employee handbook, which details Mitie's expectations with regards to the conduct of all employees, and those policies concerned with finance, procurement, and sustainability.

The investigation team will have access to all relevant information to ensure thorough investigation of fraud allegations. The team will also analyse various data collected by Mitie to proactively detect fraudulent activities.
